

IMPACT: Boston

@ Brandeis University, Boston, MA

June 22 – July 3, 2014 // \$2,425

At IMPACT: Boston, teens build relationships with peers and meet with new and diverse communities. Connected with a local non-profit organization, they work collaboratively to learn about and support their work. Their hands-on efforts on the ground helps them understand the issues facing society and learn ways to address these issues at home through their chapter, council or regional BBYO Stand UP campaigns. Teens will also enjoy free time taking in the most popular sites in Boston and living and learning on campus.

What You Can Expect from BBYO's On Campus Experiences:

- + BBYO professionals, who work with teens on the chapter, regional and International level year round, and/or the host/partner university staff supervise and support all BBYO on Campus programs.
- + Programs are designed to provide participants with a well-rounded experience while still having a unique focus inspired by the campus or host city such as advocacy (DC); entrepreneurship (Michigan); philanthropy (Chicago); and service (Boston).
- + Participants go off-campus during service and community outreach programs, organized fun and social activities or as small groups for staff-supervised free time.
- + Teens will receive approximately 35-45 community service hours for their participation at the IMPACT programs in Boston, Chicago and DC.
- + Transportation is provided from the designated airport to the program location.

What are they doing?

- + Exploring Boston and having fun on field trips with new friends from across the world.
- + Building a network of community-minded peers, with whom they'll do meaningful service and make a lasting difference in Boston.
- + Living on the campus of Brandeis University and developing leadership skills that will help them make a difference in their community and the world.

What are they gaining?

A sense of accomplishment after the meaningful work they'll do to support Boston; understanding of other communities and cultures; independence after they navigate a new city and college campus.
